### **Reviews**

*This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.*

## FOUR FISH: THE FUTURE OF THE LAST WILD FOOD

Penguin (Non-Classics). Paperback. Book Condition: New. Paperback. 304 pages. Dimensions: 8.0in. x 5.1in. x 0.9in. A necessary book for anyone truly interested in what we take from the sea to eat, and how, and why. -Sam Sifton, The New York Times Book Review. Writer and life-long fisherman Paul Greenberg takes us on a journey, examining the four fish that dominate our menus: salmon, sea bass, cod, and tuna. Investigating the forces that get fish to our dinner tables, Greenberg reveals our damaged relationship with the ocean and its inhabitants. Just three decades ago, nearly everything we ate from the sea was wild. Today, rampant overfishing and an unprecedented biotech revolution have brought us to a point where wild and farmed fish occupy equal parts of a complex marketplace. Four Fish offers a way for us to move toward a future in which healthy and sustainable seafood is the rule rather than the exception. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
